

40 Reasons to Be a CSPE Member

Governmental Affairs

AECC & CJAC

CSPE's alliances with the Architects & Engineers Conference Committee of California (A&ECC) and the Civil Justice Association of California (CJAC) helps further promote the political voice of Professional Engineers and a fair business environment in CA.

An Introduction to P.E. Licensure in California & Other States

View the full 92-page report (in pdf format) written by Vice President of Governmental Affairs Tom Stout, P.E. for the Joint Legislative Sunset Review Committee's independent consultant at www.cspe.com.

Contract Documents

CSPE offers free contract documents that fulfill the mandatory contracts provisions of Assembly Bill 2629 that became law on January 1, 2001. This document can be used to fulfill the requirements of the statute and be used by the client to waive his/her right to a written contract. Additionally, NSPE provides engineering contract documents to cover many standard business practices including procurement and remediation. Visit www.nspe.org, click on Shop NSPE, then click on Contract Documents.

Legislative E-mail Alerts

CSPE members can receive periodic updates detailing important topics relating to the engineering profession. Covers legislative requirements from BPE&LS and the California Assembly and Senate.

Legislative Positions

CSPE is a major advocate for obtaining generic registration for Professional Engineers in California. CSPE's Lobbying Coalition sponsors California Legislature that promotes and improves professional engineering in California.

Lobbying

CSPE is the largest member of an engineering lobbying coalition, the California Legislative Council for Professional Engineers. You can look at the recent accomplishments of CLCPE at www.clcpe.org.

Qualification Based Selection

CSPE promotes the use of Qualified Based Selection for governmental agencies to procure engineering services. The QBS Handbook can be downloaded from the CSPE website.

Regulatory Issues

CSPE works to cover regulatory issues that impact both P.E. licensure and Professional Engineering in California. Look up CSPE's recent regulatory actions at www.cspe.com.

Image & Membership

E-Week (National Engineer's Week)

E-Week is celebrated in February annually by thousands of engineers, students, teachers, and leaders in government and business. CSPE joins more than 100 major corporations dedicated to increasing public awareness and appreciation of technology and the engineering profession. NSPE is the founder of this premier engineering image campaign.

Introduce a Girl to Engineering Day

Students throughout California can shadow CSPE engineers serving as workplace mentors as they go through a normal day on the job.

Supporting Organizations

CSPE recognizes those companies and organizations that help support CSPE in our efforts to promote and advance the profession of engineering in California.

Virtual Chapter

Designed to enable members to communicate electronically, the Virtual Chapter website is an area to ask and answer questions pertaining to CSPE and engineering in California.

ZOOM Into Engineering

ZOOM Into Engineering is a NSPE project designed to excite kids about engineering by combining enthusiastic volunteers with the fun, kid-tested, engineering activities from the hit PBS television show ZOOM.

Member Services

State Education Requirements

Depending on the state of a P.E. license, there are different Continuing Education requirements. CSPE provides a state-by-state summary, as well as methods to obtain more information.

Student & Youth

CSPE Education Foundation

The CSPE Education Foundation (CSPEEF) is the fundraising arm of CSPE. As a fully-operational 501c(3) organization, CSPEEF helps sponsor MATHCOUNTS, the Ingersoll EIT Grants, and advocates construction and career technical education (CTE) in the classroom.

Ingersoll EIT Grants

CSPE provides grants to students interested in taking the California Engineer-in-Training (EIT or FE) examination, the first step on the road to becoming a Professional Engineer.

JETS

JETS provides programs and resources that let students explore, assess, and experience engineering first-hand. From exciting student competitions to assessment tools and career exploration materials, JETS helps students plan for rewarding futures by showing them how engineering can help them pursue their dreams.

MATHCOUNTS

CSPE is committed to helping the profession of engineering through the sponsorship of California MATHCOUNTS, a junior high mathematics competition intended to increase the technical skills of California's youth. CSPE sponsors 25 local competitions and two statewide competitions, influencing over 20,000 middle schoolers every year.

NCEES

The CSPE website has links to useful sections of the NCEES website for students. You can visit this page at www.cspe.com.

P.E. Review Courses

CSPE provides a complete resource of companies and institutions that provide review courses and materials for taking either the EIT or PE examination in California. Many of these companies also offer discounts to CSPE members.
